

Feel the Touch of Nature.

Corporate  
Presentation

 **AGT In Brief**

**Since 1984,**

# **The Name Of Quality And Trust**

AGT is a global brand which operates over 60 countries in 5 continents.

# Vision

- To be a world brand that customers, employees and business partners are happy and proud to work with, that never compromises on its quality and ethical values, that is open to innovation and serves as a leader to its sector.

# Mission

- To combine wood with technology in order to add naturalness and beauty to life,
- To produce good quality, attractive and trend-setting products for living spaces,
- To provide solution partnerships to all stakeholders in the sector with products, and services,
- To be a leading brand that has adopted the principle of customer satisfaction

Melamine Faced MDF

Annually 9 million m<sup>2</sup>  
PVC Panel

Annually 6 million m<sup>2</sup>  
Lacquered Melamine Faced MDF  
Power Gloss

Annually 15 million m<sup>2</sup>  
Flooring

**Door and Profile production facilities.**

**Production started with the MDF and MDF- Lam in the MDF facilities.  
We then enriched the product range with panel and flooring production  
in various features.**

 **AGT Product Family**

**AGT is the pioneering world brand that can produce wood based products that fulfill the whole needs of living spaces.**

# AGT Product Family

**MDF**

**MDF - Lam**

**PVC  
faced MDF Panel**

**Lacquered Melamine  
faced MDF**

**Acrylic  
faced MDF**

**Profile**

**Door**

**Flooring**

**Skirting**

**AGT's MDF, the core of our products, is produced in AGT's recent MDF factory with the latest technology.**

### **Main Features**

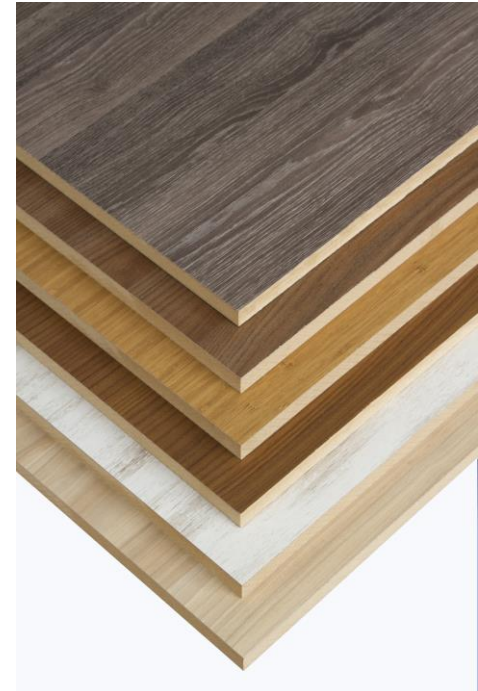

- Optimum density
- Excellent surface structure with superior quality
- Excellent processing
- Balanced fiber distribution
- High resistance to bending
- High swelling resistance
- Strong body
- Material structure suitable for painting manufacturing
- High bolt gripping and drawing durability

**AGT's melamine faced MDF, with wood finishes.**

### **Main Features**

- Different colour options and surface alternatives
- E1 Class
- Various surface alternatives
- High swelling resistance
- Strong body

**AGT's PVC faced MDF Panel is offered with one side faced by default, but it can also be available double faced, by demand (minimum order quantity).**

**It is used in several applications such as furniture body, cover frame, wall panel, drawer bottom, furniture backboard, etc.**

### **Main Features**

- Over 70 color options (**Soft Touch** and **High Gloss**)
- E1 Class
- Trend-setting modern decoration
- A wealth of designs that match outstandingly with the surface structure
- High swelling resistance
- Strong body
- High bolt gripping and drawing durability

### **Available Dimensions**

- 18x1220x2800 mm

**AGT's Lacquered Melamine faced MDF (POWER GLOSS) is manufactured by using the latest UV laser-cylinder technology on a double-faced melamine MDF (same colour). It is lacquered in one side or both (by demand), using 6 coats, presenting an extremely high gloss, scratch and impact and abrasion resistance.**

## Main Features

- Over 20 different colours and surface option
- E1 Class
- Double-faced melamine MDF, lacquered in one side or both (by demand)
- 100% UV acrylic resin based lacquer
- Environmental friendly – it does not release any VOC (volatile organic compounds) to the atmosphere
- 2 years warranty

## Available Dimensions

- 18x1220x2800 mm

**AGT's Anti-Scratch Acrylic Panel is manufactured with one faced AM1800TopX high gloss lacquered acrylic film, from the well-known supplier Senoplast (Senosan®), presenting a unique glossy surface and depth effect with superior scratch resistance.**

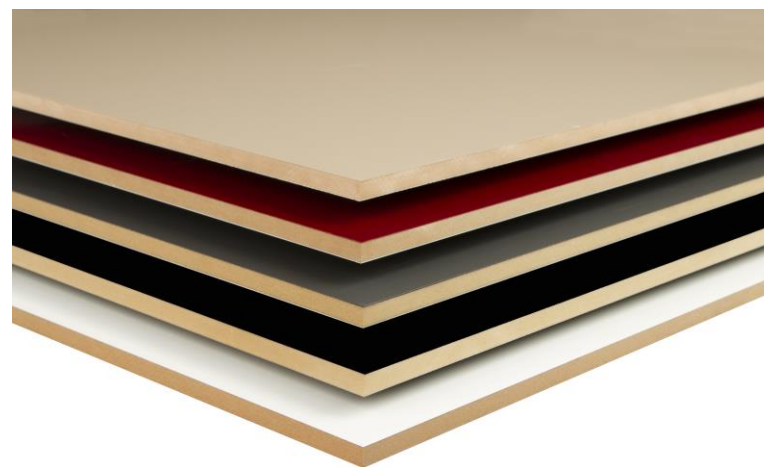

**The B side is faced with a high impact polystyrene (HIPS) sheet, with the same colour.**

### **Main Features**

- Exceptional high gloss level
- Improved scratch resistance
- Trendy and high demand colour range
- E1 Class
- Same front and back surfaces colors

### **Available Dimensions**

- 18x1220x2800 mm

Foil Thickness : 0,8 mm

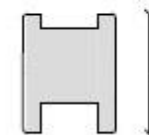

Scratch Resistance (EN 438-2): 2 N (average)

Scratch resistance (HD-W-466 method): Class 1. Loss of gloss <20%

Gloss level (DIN 67 530 (60° glossmaster): > 85 GLE

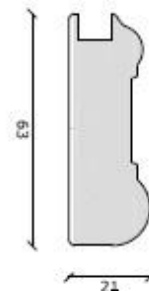

**AGT Profile, produced with AGT'S MDF, can be used with panel and other AGT products. It is produced in various forms such as thickening and edge profiles, crown and light pelmet profiles, skirtings, table leg and multi purpose profiles.**
