Quality and Innovation

The kitchen has become the centre of modern interiors, the heart of any home, the place where family ties are woven. Alveus presents sinks and other kitchen products, which can bring your kitchen in line with the latest trends.

When it comes to innovation, material and manufacturing quality, and constant search for new solutions to increase the comfort and functionality of our products, we make no compromises. This is why Alveus sinks rank among the top modern design solutions, and boast quality that exceeds similar products in many respects.

Presentation of trademark Alveus

Alveus

The Alveus brand products are designed for modern high-end kitchens. In today's interiors, the boundaries between the kitchen and living area are becoming blurred, while minimalist, refined and sophisticated design solutions have begun to gain ground.

With their large, clean surfaces and innovative approach to space use, Alveus sinks perfectly match the latest furniture and architectural ideas. They are made for kitchens just like that, as their outstanding design and functional qualities exceed the existing standards in many ways.

The carefully designed solutions will enhance your food preparation and kitchen work efficiency. Alveus sinks are manufactured from top-quality modern materials, which ensures easy and environment-friendly maintenance and decomposition.

About manufacturer

Kovinoplastika Lož from Slovenia is one of the largest and most successful European suppliers of kitchen sinks and related equipment, which boasts a 61-year tradition. It is an international company, which has earned its enviable position in the kitchen equipment market by pursuing the highest quality stadards, keeping pace with modern design trends, and being a flexible and reliable business partner.

Due to its products, which boast not only outstanding quality but also an excellent quality/price ratio, Kovinoplastika Lož is quickly and effectively strengthening its market positions in Slovenia as well as in other European countries.

The Alveus brand sinks are available in many markets seven of which are controlled successfully by Kovinoplastika Lož through its subsidiaries and the rest through long-term successful partnerships with local companies.

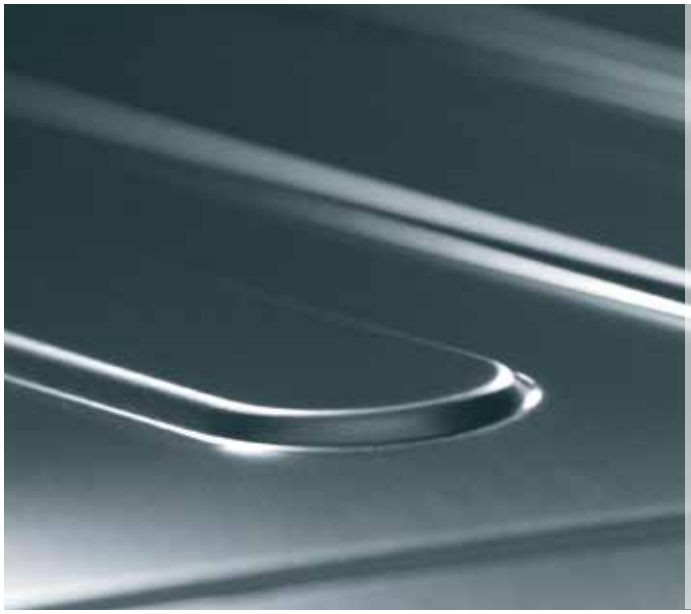
Apart from manufacturing and marketing the Alveus brand products, Kovinoplastika Lož successfully manages the production programmes of other own brands, among which the building hardware and joinery brands stand out.

Gastronorm programme is designed for use in the catering and hotel industries and in canteens. Kovinoplastika Lož has a long tradition in cooperating with europeans most important companies in field of components.

As Kovinoplastika Lož is one of the most important centres of manufacturing knowledge in the region, the company also boasts a long tradition of successful tool manufacturing service marketing and sophisticated tool and machine manufacture and marketing.

Great advantages

Modern kitchens are flexible, well designed, and increasingly freed from the traditional division into the cooking, work and wash-up areas. With state-of-the-art sinks, the Alveus brand promotes inovative and functional kitchen solutions, which transcend the limits of the "wet" kitchen area. Alveus sinks are thus becoming an important part of everyday life, and are designed and manufatured accordingly, displaying the four most significant qualities that place Alveus sinks among the top products in the market.



Sturdiness

Alveus sinks rank among the most durable sinks in the market since they are manufactured from 18/10 stainless steel up to 1 mm in thickness. The main advantage of thicker steel are greater impact resistance, increased stability of a sink tap and significantly reduced level of water splashing noise. In weight comparison, sinks made of thicker stainless steel are heavier.
Granite composite sinks are composed of granite parts tightly bound with high quality acrylic resin, which helps to acquire excellent mechanical properties and chemical persistence. Some Alveus finished goods are made of tempered glass, a type of safety glass with significantly increased toughness and thermal resistance.

Handiness

Alveus sink bowls can be deeper than other products of the sort. The capacity of the sink is thus increased by up to a few litres, which makes the task of washing up large pieces and big amounts of dishes much more comfortable.

The sinks use $1^{1/2''}$ or $3^{1/2''}$ drain plumbing (depending on the model), which allows quick drainage of large amounts of water.

Health and Environment Friendliness

Alveus sinks are surface treated to resist the growth of mould, microorganisms and bacteria. All surfaces are easy to clean, as the sinks have no inaccessible spots for bits of food and other grime to accumulate.

In addition, Alveus sinks are environmentally friendly, containing no harmful admixtures that might be released into the environment upon decomposition.

Durability

Alveus sinks are easy to clean and maintain, as they are manufactured from top-quality materials and designed to allow simple maintenance without aggressive cleaning agents. The composite as well as stainless sinks are extremely resistant to impacts, high temperatures, scratching, chemicals and all sorts of stains.

Selection Guide

When buying a kitchen sink it is recommendable to, consider the following:

Cabinet width – first of all, you must know the size/width of the sink cabinet, which has influence on your choice.

Our sinks are classified according to the minimum required cabinet width, namely 400, 450, 500, 600, 800, 900 and 1000 mm plus 900x900 mm corner cabinet. Smaller kitchen sinks can be accomodated by larger cabinets, but never vice versa. For instance, a sink dimensioned to fit a cabinet of 400 mm minimum width can also be installed into any cabinet exceeding the designated size.

Sink orientation – once you have determined the cabinet width, you have to determine orientation of the sink on the kitchen worktop. You can choose among left-hand, right-hand and reversible sink designs. Most of sinks are reversible, you need not to worry about the orientation upon your purchase, as you can turn the sink with its main bowl(s) according to your needs.

In the next step, you can **choose among various materials** (stainless steel or composite material), **various installation types** (inset, flush mount, flat mount, undermount or sit-on) and, **various sink designs**.

Configurations

Alveus kitchen sinks come in various orientations to adjust perfectly to your kitchen requirements. To make your decision easier, every sink presentation in this catalogue includes a list of available varieties.

left-hand	main bowl on the left, drainer on the right
right-hand	large bowl on the right, drainer on the left
reversible	any arrangement possible; bowl on the left or on the right
corner	can be installed into corner cabinets (some models also into regular cabinets, depending on model dimensions).

Installation Types

Alveus sinks are suitable for various installation types, thus adjusting completely to design and architectural requirements of your kitchen.

Inset sinks are installed into kitchen worktop, thus forming part of continuous working surface. Sink is inserted from above into a suitable worktop cut-out and fastened with supplied clamps.

I

Flush mount sinks are installed into previously adjusted kitchen worktop made of waterproof material (natural stone, composite material, glass, impregnated solid wood). Surface of the sink and surface of the worktop are in the same level. The main advantage is seamless working surface that enables very easy cleaning and an attractive appearance.

F

Flat mount sink are installed into kitchen worktop so that a uniform working surface is created. Thin, almost unnoticeable rims allow quick and easy cleaning. An additional advantage is simple installation from above into each type of kitchen worktop.

S

Undermount sinks are installed into kitchen worktop from below. Worktop must be made of waterproof material, such as natural stone and composite material. This type of installation enables various combinations of undermount bowls in different sizes. Absence of seams between sink and worktop contributes to simple hygiene maintenance and overall appeal of a kitchen.

U

Sit-on sinks assume the function of kitchen worktop by replacing it on top of a kitchen cabinet. They either "sit" at the end of a worktop or connect two worktop ends (one on each side). Alveus Sit-on Sinks normally have a rear wall rim of 30 mm, however there are a few versions without it (please see individual sinks description).
The sinks can be installed in combination with standard worktops of 30 mm thickness.
They are fastened by means of integrated wooden frame (type L), with supplied plastic clips (type K) or by using factory-made screw holes (type B).

Fully Equipped

Accessories

With suitable accessories, such as strainer bowls, chopping boards, detergent dispenser, trays and covers Alveus sinks turn practically into complete small kitchens, furnished for the most delicious activities. The majority of sinks have the most important and most interesting accessories included in the basic package, which is clearly marked in this catalogue. The rest of the accessories are available to order.

Waste Kits and Pop-Up System

Most sinks come with suitable waste system traps in order to facilitate the installation process. Certain sinks are supplied with pop-up system, which allow remote operation of the drain stopper. This is very practical for the moments when we wish to close an waste or empty the water out of a full sink without getting our hands wet.

Seals

Most of the sinks are fitted with top-quality Alvoflex seals already attached to the undersides of their outer rims. This is permanent fixation that enables faster and easier installation, and prevents water leakage under the sink rim to kitchen worktop and cabinet.

Sound-Deadening Undercoating

As a contrast to some competing products, all Alveus stainless sinks are serially fitted with special sound-deadening undercoating. This undercoating mitigates the noise from water splashing upon hitting the sink surface, and thus successfully increases the comfort of working and living.

Mounting Accessories

The type of fastening accessories depends on installation type of sinks and kitchen worktop material.
There are suitable accessories available for each type of sink installation - I (inset), F (flush), S (flat) or U (undermount). For I, F and S installation method, there are optimum number of fastening clips enclosed with each sink, suitable for mounting into worktops of 30 to 40 mm thickness.

Undermount Sink Fittings

The undermount sinks can be supplied with special fastening accessories, designed to suit installation method as well as type of worktop material.

Factory-Made Cut-Outs

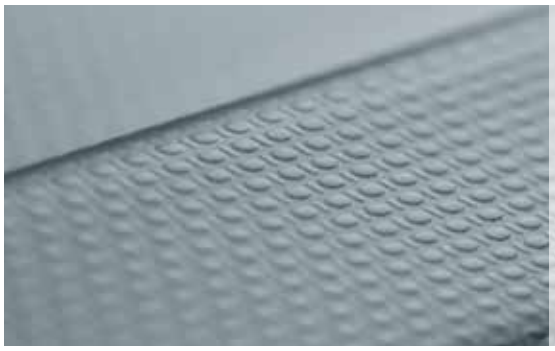
Assembly of additional elements Alveus is very simple, as the orifices for kitchen fittings and eventual other equipment (pop-up waste or detergent dispenser) are mostly prepared already in production. Thus, there is no need to bother with the risky business of cutting out the precisely located holes yourself.

Overflow

Alveus sinks are designed in a way that the excess water does not remain on the level surfaces, but is drained either through the central drain or overflow. The overflow is an opening on the bowl wall or drainer surface, which prevents water from spilling over the sink in case the waste drain is blocked. The overflow is thus a kind of a safety device in your kitchen.

Top-Quality Materials

Alveus kitchen sinks are available in several materials, surface finishes and colours. Apart from the stainless steel sinks in three finishes (SAT- Satin, LEI - Leinen and MLEI - Microleinen), our offer includes selected models from high-quality composite material Algranit. In the wide range of Algranit colours, you will certainly find the one that will blend into your kitchen or create with the kitchen a beautiful contrast.



Premium Stainless Steel

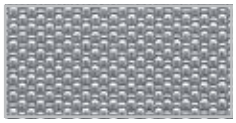
The main characteristics and advantages of 18/10 stainless steel are:
- Easy cleaning which ensures a high level of hygiene
- Resistance to high temperatures and rapid temperature changes (thermal shock)
- Resistance to impacts
- Resistance to chemical influences
- 100 % recyclability

The stainless steel (CrNi) thickness ranges from 0.5 mm to 1.0 mm depending on the price range of the sink.

Surface finishes

The difference between the finishes is mainly reflected in the appearance and partly in the scratch resistance. While the SAT finish produces a polished, easy-to-clean stainless steel surface the LEI and MLEI finishes produce a matte texture, which is less sensitive to tiny scratches, but requires a bit more care. The technical characteristics of the basic material are the same in all varieties; however, certain sinks are not always available in all three finishes.

SAT (Satin)



LEI (Leinen)

MLEI (Microleinen)

Special surface treatment of stainless steel

A thin vaporised metal substance known as ceramic nitride is deposited onto stainless steel surface, resulting in unique metal lustre and increased scratch resistance.
The surface-treated stainless steel is available in three precious metal colour shades - GOLD, COPPER, ANTHRACITE and BRONZE.
Due to the nature of surface treatment process, each sink ends up with unique colour shade.

COPPER

GOLD

ANTHRACITE

BRONZE

Tempered Glass

Tempered glass is a safety glass with emphasis on toughness and thermal resistance. There are five available colours - black, white, red, violet and yellow, which will bring uncompromising elegance and style into every kitchen.

Colour range

white

black

red

violet

yellow

Algranit composite material

Kitchen sinks from composite material ALGRANIT contain of granite particles bound together by high-quality polymer resin to achieve excellent sturdiness and resistance to high temperatures.

The sinks boast excellent resistance to scratches and impacts, while their smooth surface ensures easy cleaning; dirt, stains, scale and even accidentally spilt chemicals can be removed effortlessly.

Colour range

The Algranit material is available in a wide range of colours, some of which are added a metallic lustre. The colour will not fade with time, as the material is not sensitive to UV ray

A11- arctic

A22 - terra

A23 - cream

A51 - beige

A57 - espresso-metallic

A21 - cappuccino-metallic

A91 - carbon

A16 - anthrazit-metallic

Granital composite material

Sinks in Granital material are available in various colours to which we added extra five Granital Plus shades with metallic shimmering parts which give to the sink an elegant high-end look. Granital composite material is a mixture of 75-80% granite particles bound together by high-quality binder, which provides strength and flexibility to a kitchen sink as well as the resistance to temperature shocks.

Careful surface treatment makes kitchen sink smooth and pleasant to the touch. The smoothness of the surface provides an easy cleaning of the kitchen sink. Increased material sturdiness and cleaning in accordance with the instructions guarantee a long service life to these sinks.

Care and Maintenance

The products united under the Alveus brand are first-rate products in terms of quality, manufacture, materials and design. Since the sinks are made of various materials with specific characteristics, care and maintenance must be adjusted accordingly. Every sink is supplied with care and maintenance instructions. Following the recommendations stated, you will ensure a long service life to your Alveus kitchen products.

Stainless steel sinks and hob units

Soft cloths and liquid household cleaners should be used for cleaning. We recommend Alveus cleaning and care agents. Avoid silver cleaner, steel wool pads, bleach or abrasive detergents. Do not deposit unprotected metal objects onto the stainless steel parts.

Should stainless steel come into contact with strong acids, flush it immediately with a large amount of water. To avoid staining, do not leave food or corrosive substances (e.g. fruit juice, kitchen salt, vinegar, mustard, mayonnaise etc.) on stainless steel surfaces for longer period of time. We recommend that stainless steel products be wiped with a dry soft cloth after use to prevent scale formation.

Composite sinks

Most stains and dirt can be removed with mild liquid nonabrasive household cleaners or ammoniac-based detergents. More difficult stains can be removed with a fine polishing agent; the remains of limestone can be removed with 9% acetic acid (vinegar). We recommend Alveus cleaning and care agents.

Chlorine detergents (soda hypochlorite) or hydrochloric acids as well as exposure to strong chemicals (varnish removers, oven cleaners, concentrated acids, lye and similar) can damage the sink finish. Should the contact occur, rinse quickly the surface with water. We recommend the use of appropriate chopping boards.

Kitchen taps

For cleaning of Alveus kitchen fittings it is best to use a soft cloth, hot water and liquid detergent for kitchen sinks. Should scale build up on the tap, remove it with 9 % acetic acid.

Silver cleaners, steel wool pads, bleach or abrasive detergents can damage the tap finish, so they should be avoided. Chlorine detergents (soda hypochlorite) or hydrochloric acid can have a similar effect.

Waste segregation bin systems

Waste segregation systems are designed to allow for the most convenient removal of kitchen waste from the work surfaces. Apart from mixed binning, the systems enable separate binning of different kinds of biological and non-biological waste. Due to various container sizes and large total capacity, they fit any home.

ALVEUS

Modern kitchens are becoming an increasingly important part of the living area, where people spend quality time, preparing food and socialising. At the same time, they tend to connect with other rooms so the boundaries between the living area and kitchen have disappeared almost completely.

Large, clean, modern surfaces require sinks that fit perfectly into the cutting-edge kitchen-living environments, while still performing up to the most demanding of gourmet tasks. Alveus sinks are designed for these very kitchens, as their outstanding design and functional qualities surpass the existent standards in many a way.

Stylux

The kitchen has grown into focal point of modern interiors, becoming the heart of family life and a place where the most important family ties are woven. ALVEUS will warm your heart with STYLUX, the new family of kitchen sinks, which belongs to the very top of contemporary design solutions. You can choose amongst seven fabolous sink models of different dimensions that are built from CrNi 18/10 grade stainless steel in 1 mm thickness, and enhanced by a wide range of innovative and stylish accessories. Let the family ties be woven with ALVEUS...

- **the bowl radius of 10 mm in combination with 200 mm depth provides for a considerably larger dishwashing space**
- **1 mm thick stainless steel - ensured greater rigidity and stability of the sink**
- **additionally reinforced fixture area**
- **square waste outlet – corresponds with the minimalistic design as well as the straight, clean lines**
- **flat mount inset (S) or flush mount inset (F) installation– adding to the clean design**
- **flush mount inset (F) installation with seamless edges enables simple cleaning**
- **functional optional accessories:**
  - **TriTop - additional working space, sink covering**
  - **a glass chopping board slides along the entire length of the sink**
  - **square detergent dispenser, corresponding to the sink design**
  - **large strainer bowl – perfect for washing or draining food items or setting aside smaller dishes**

- contemporary and timeless design
- clean lines and smooth surfaces – enable easy cleaning and maintenance
- smooth drainer surface, inclined towards the bowl – prevents scale accumulation
- bowl inclination towards the waste outlet – enable water to drain-off faster
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- Stylux 40 – with its large bowl combined with optional equipment makes for a perfect kitchen workstation
- Pop-up system – enables remote water-draining management
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- position of waste outlet - enables more effective use of space in the cabinet underneath the sink
- above-average soundproofing
- enclosed Pop-up waste kit
- high-quality cardboard packaging – enables safe transportation

Pure

Kitchen sinks Pure will surely be a focal point of your kitchen. Your eyes will admire the sophisticated design, clean lines and impeccable shine of gorgeous Pure sinks. Enormous bowls will make you want to clean the dishes over and over. Radius 15 gives a Pure sink an elegant design and yet it makes a sink easy to clean. As the design itself is not enough, we upgraded an elegance of the sink with a F and S installation which makes a sink become one with the worktop.
Depending on your cooking skills you can choose between six spacious models.

- **the bowl radius of 15 mm in combination with 195 mm depth provides for a considerably larger dishwashing space**
- **1mm thick stainless steel ensured greater rigidity and stability of the sink**
- **flat mount inset (S) or flush mount inset (F) installation– adding to the clean design**
- **flush mount inset (F) installation with seamless edges enables simple cleaning**

- contemporary and minimalistic design
- clean lines and smooth surfaces – easier cleaning
- deepened rim
- manually treated surface
- Pop-up system – enables remote water-draining management
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- clean lines and smooth surfaces – enable simple cleaning and maintenance
- smooth draining surface, inclined towards the bowl – prevents scale accumulation
- bowl inclination towards the drain opening – enable water to drain-off faster
- optional accessories
    - large strainer bowl adds to the sink functionality
- a glass board slides along the entire length of the sink
- round waste outlet – Ø 90 mm
- enclosed Pop-up siphon
- above-average soundproofing
- high-quality cardboard packaging – enables safe transportation

Quadrix

The Quadrix sinks allow great creative freedom in the kitchen. With clean shapes and a touch of the latest trends, they are designed for the most demanding users. The line comprises different models of various dimensions, which can be combined in any way you choose. The sinks are manufactured from high-quality stainless steel of above-average thickness. Their basic characteristic are small radiuses (10 mm); in combination with a 200 mm bowl depth, these provide a significantly increased sink bowl capacity.

- **various bowl combinations possible**
- **flat mount inset (S) or flush mount inset (F) installation– adding to the clean design**
- **flush mount inset (F) installation with seamless edges enables simple cleaning**
- **the bowl radius R10 with 200 mm depth provides for a considerably larger dishwashing space**

- clean lines and smooth surfaces – enable easy cleaning and maintenance
- possibility of combining various bowls at the same time
- 1mm thick stainless steel ensures rigidity and stability of the sink
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- Pop-up mechanism – enables remote water-draining management
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- round waste outlet – Ø 90 mm
- optional accessories
    - large strainer bowl adds to the sink functionality
- above-average soundproofing
- high-quality cardboard packaging – enables safe transportation

Vision

Vision sinks are actually small kitchens, brimming with new ideas. Their design is suited to the requirements of modern cooks expecting maximum functionality and assistance. Large bowls and drainer make washing up and draining easy. A special feature is an additional drain area with own drain, where you can keep your sponge or pour liquid waste. The entire sink is designed so as to channel all drained-off water towards the drain, and its usability is enhanced by the adjustable drain flow function.

- **very functional corner model - optimal use of corner space with two bowls and two functional draining/ working surfaces**
- **special working surface inclination - enables more effective and faster water drain-off towards the bowl and away from the user**
- **additional functional draining surface - with its own drain opening enables hygienic storage for wet sponges and cloths**

- large bowl with an above-average depth of 200mm
- large draining/working surface
- 1mm thick stainless steel ensures rigidity and stability of the sink
- the standard kit, in addition to the sink, contains:
  - Pop-up waste kit
  - detergent dispenser
- optional accessories – add to the sink functionality
- a chopping board slides along the entire length of the sink (also over the inserted strainer bowl)
- Pop-up system – enables remote water-draining management
- prefabricated openings for the mounting of the mixer tap, Pop-up button and detergent dispenser
- possible custom arrangement of the mixer tap, Pop-up button and detergent dispenser
- position of the waste outlet - enables more effective use of space in the cabinet underneath the sink
- above-average soundproofing
- high-quality cardboard packaging – enables safe transportation

Line Maxim

Line Maxim sink family of modern design and clean lines offers innovative and functional solutions and transcends the limits of "wet" kitchen area. Owing to the variegated and numerous accessories Line Maxim sinks make work in the kitchen so much easier. The functional washing-up and food preparation solutions are designed for the most demanding users. Namely, there is a wide array of available accessories- a stainless steel strainer bowl (colander) and tray, a glass chopping board, a pop-up waste system, as well as the large chopping board that cawl.

- **reversible models**
- **wide choice of models – different dimensions, number and combinations of bowls**
- **it is possible to choose between the two stainless steel surface finishes - SATIN and LEINEN**
- **possibility of different installations – inset (I), flush mount (F) and flat mount (S)**

- contemporary, modern design
- straight lines and smooth surfaces – enable easy cleaning
- above-average bowl depth – 190 mm
- wide choice of accessories - increases sink functionality
- flat mount inset (S) or flush mount inset (F) installation – adding to the clean design
- flush mount inset (F) installation with seamless edges enables easy cleaning
- flush mount inset (F) installation – suitable for waterproof worktops
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- it is possible to choose between a model with two prefabricated openings Ø 35mm or one without them
- above-average soundproofing

More

One kitchen sink which satisfies many needs. Kitchen sink More is an excellent model for the kitchens with space shortage as well as for modern kitchens.
Depending on what look would you like to accomplish in your kitchen you can choose between different types of installation. Other than the classic inset (I) installation you may give the kitchen a modern look with flat mount (S) installation. In case of waterproof working top you can additionally choose from flush mount (F) and undermount (U) type of installation. In case of undermount (U) inastallation you will add additional 3 cm of depth to the sink.

- **classic-modern design**
- **above-average spacious bowl**
- **possibility of different installations – inset (I), undermount (U), flush mount (F) and flat mount (S)**

- flush mount inset (F) installation with seamless edges enables easy cleaning
- flush mount inset (F) installation – suitable for waterproof worktops
- inset (I) and flat mount (S) installation – possible installation into every type of kitchen worktop
- larger bowl radius – easier cleaning and maintenance
- round waste outlet – Ø 90 mm
- prefabricated hole – Ø 35mm

Elegant

The Elegant sink family suits almost any kitchen, for their classic design maintains timeless appeal. Various bowl sizes and configurations with or without the drainer surface compose the variegated kitchen sink family. The large bowl has an above-average depth of 190 mm, while the depth of the smaller bowl amounts to 130 mm.
You can choose among models made in stainless steel with different surface finishes as well as among a wide range of suittable accessories.

- **iconic models**
- **it is possible to choose among three stainless steel surface finishes - SATIN, LEINEN and MICRO LEINEN**
- **reversible models**

- timeless design of the draining surface
- above-average bowl depth – 190 mm
- round waste outlet – Ø 90mm
- enclosed space-saving siphon – provides for more free space in the cabinet

Duo

The Duo comprises undermount sinks, which nicely match kitchen worktops from natural stone, composites or waterproofed wood. These sinks are mounted from beneath and their rims are concealed under the worktops. In addition, useful accessories are available to order, such as wooden chopping boards, strainer bowls and detergent dispenser.

- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- optional accessories – adds to the sink functionality
- round waste outlet – Ø 90 mm
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system– enables remote water-draining management
- high-quality cardboard packaging – enables safe transportation

Kombino

Combine two, three or more Kombino undermount bowls and create your dream kitchen station. You may choose from six different spacious bowls made of high quality stainless steel. Depth and radius R15 of the bowls will give your kitchen a high-end look at the reasonable price.

- **the bowl radius R15 with the above-average depth of 195mm depth provides for a considerably larger dishwashing space**
- **1mm thick stainless steel ensures rigidity and stability of the sink**
- **wide choice of bowl – numerous combinations possible**

- contemporary and timeless design
- manually treated surface
- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- round waste outlet – Ø 90 mm
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- high-quality cardboard packaging – enables safe transportation

Variant

The Variant sinks comprise undermount bowl combinations. Some of them are also available in the flush and flat mount varietes. To make your decision easier, a few typical bowl configurations suitable for various cabinet dimensions are presented at the end of this section.

- **wide choice of bowl designs and depths**
- **possibility of combining various bowls at the same time**
- **bowl depths – from 120 to 250mm**

- type of installation - undermount (U)
- installation into countertops made from water-resistant materials – stone, composite, waterproof wood
- Variant 10 and 40: different installations possible – undermount (U), flush mount (F) and flat mount (S)
- flat mount inset (S) installation – possible installation into every type of kitchen worktop
- round waste outlet – Ø 90 mm

Line

With their varied and large range of accessories, Line sinks make work in the kitchen so much easier. The functional washing-up and food preparation solutions, typical of high-end sinks and designed for the most demanding users, are now available at reasonable prices.

Various combinations of accessories can be put together and fully adjusted to individual needs. Line sinks are manufactured from quality stainless steel and come in two surface finishes.

- **reversible models**
- **wide choice of models – different dimensions, number and combinations of bowls**
- **it is possible to choose between the two stainless steel surface finishes - SATIN, and LEINEN**

- contemporary design
- straight lines and smooth surfaces – enable easy cleaning
- large, spacious bowls
- wide choice of accessories - increases sink functionality
- enclosed space-saving siphon – provides for more free space in the cabinet

Zoom

Kitchen sinks ZOOM are a great compromise of design and basic dimensions. Sinks are suitable for the kitchen cabinet of minimum width 45 cm. Depending on your needs and capabilities of your kitchen you can choose between three dimensions of contemporarily designed draining surface. Kitchen sink ZOOM can be refined with additional functions by adding a wooden chopping board, a strainer basket and detergent dispenser.

Monarch Collection

Every kitchen deserves a wonderful sink. The Alveus brand of sinks has had a new addition to its product range – the Monarch Collection. These sinks come in four stunning colours shades: GOLD, BRONZE, COPPER and ANTHRACITE. These precious stainless steel colours will add unique sparkle to your kitchen. The metal lustre of Monarch Collection sinks will add

- **a collection for unique, different kitchens**
- **special surface treatment of stainless steel adds a unique metal lustre and increases scratch resistance**

- models available in four precious colour shades
- waste outlets in sink colour
- overflow in sink colour
- possibility of combining kitchen sinks with various kitchen mixer taps in the same colour shade
- accessories in sink colour

Crystalix
Karat
Wave
Glassix

Crystalix, Karat, Wave and Glassix kitchen sinks will bring creative elegance and colour into your home. The sinks are made for most demanding users, who require not only uncompromising quality, but also cutting edge design and who dare to try something different. The sinks are available in four amazing designs in different models and colours. They are manufactured from premium stainless steel and equipped with glass top made of tempered safety glass.
Tempered safety glass improves the mechanical properties of the glass by greatly increasing its toughness.

- **the drainer surface is made of tempered glass of above-average thickness which makes the surface harder and heat resistant up to 180°C.**
- **deep, spacious sink bowls are made of high-grade stainless steel**
- **compactness of the product enables stable installation of the heaviest mixer taps**
- **possibility of ordering the glass surface in any RAL colour shade or with unique graphics of your choice**
- **in addition to the sink, the standard kit contains:**
    - **Pop-up waste kit**
    - **square detergent dispenser made of chromed brass (Crystalix)**
    - **functional, stainless steel strainer bowl of a modern design (Crystalix)**

- contemporary and timeless design
- clean lines and smooth surfaces – enable easy cleaning and maintenance
- an aesthetic combination of the kitchen sink with black or white glass-ceramic panel
- wide choice of glass surface colours
- the glass surface enables quick and easy cleaning thereby ensuring hygiene of surfaces
- prefabricated holes Ø 35mm for the installation of the mixer tap, Pop-up siphon
- Pop-up system – enables remote water-draining management
- aesthetically concealed overflow – prevents jamming of sponge or cloth
- precisely and fine-ground edges of the glass drainer surface - prevent possible cuts and reduce the possibility of damaging the sink to a minimum
- above-average soundproofing
- high-quality cardboard packaging – enables safe transportation

TEMPERED GLASS

Algranit

Cubo
Futur
Lux

Cubo, Futur and Lux kitchen sinks are made of high-quality Algranit composite material in various colours. Deep sink bowls (large bowl depth up to 230 mm small bowl depth up to 150 mm) ensure a high level of functionality, and in combination with the stylish small radiuses result in a significantly increased capacity. Sinks are of straight lines and a smooth surface, which allow easy cleaning and hygiene maintenance. The accessories perfectly matching the sink shape will also be of assistance in the kitchen.

- **high-grade composite material Algranit**
- **wide choice of models – different dimensions, number and combinations of bowls**
- **above-average bowl depths – 205mm (model Cubo 10 even up to 230 mm)**
- **two prefabricated holes Ø 35mm for the installation of the mixer tap and the Pop-up button**
- **possibility of combining kitchen sink with various mixer taps in the colour of the sink**

- contemporary shapes
- modern and minimalistic design
- reversible models
- wide choice of colours
- three colour shades with added metal particles
- optional accessories – add to the sink functionality
- smoothly finished bowl surface – enables easy cleaning
- roughly finished draining surface - prevents sliding
- high content of granite particles – provides sink rigidity
- UV ray-resistant material
- high shock and temperature resistance
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- round waste outlet – Ø 90 mm
- material strength - ensures stability to the mixer tap
- high-quality cardboard packaging – enables safe transportation

COMPOSITE MATERIAL

Granital
Sensual
Formic
Roll
Rock
Niagara

A vast range of Alveus sinks is made of high quality composite material Granital and Granital Plus. Due to the careful processing of the material, the surface of kitchen sinks Granital is smooth, pleasant to the touch and allows easy cleaning. Extra five colours, Granital Plus, are upgraded with shimmering metallic parts, which give an elegant high-end appearance to the kitchen sink and are available for models Formic and Sensual.

- **high-grade composite material Granital**
- **models Sensual, Formic and Quadrix available in five colour shades with metallic lustre**
- **Sensual models – special hexagonal design of the draining surface, waste outlet and Pop-up button**
- **Formic & Quadrix models – available for inset (I) and undermount (U) installation**
- **two prefabricated openings Ø 35mm for the installation of the mixer tap and the Pop-up button**

- wide choice of designs and shapes
- available in five earth-colour shades
- reversible models
- enclosed space-saving siphon – provides for more free space in the cabinet
- Pop-up system – enables remote water-draining management
- carefully processed sink surface is smooth – enables easy cleaning
- round waste outlet – Ø 90 mm
- high content of granite particles – provides sink rigidity
- high shock, scratch and temperature resistance
- material strength - ensures mixer tap stability
- high-quality cardboard packaging – enables safe transportation

KITCHEN WASTE AND PLUMBING KITS

Alveus waste kits are an integral part of every kitchen sink. Plastic parts are made of environment polymer materials, while the metal ones are stainless. Along with the appurtenant gaskets these form an effective used water drain system.
The waste kits fit to Alveus sinks and enable connection of dishwasher drain hose. The well-designed construction of Alveus waste kits allows easy cleaning and maintenance as well as better space utilisation in the sink cabinet.

- Wastes come in standard size of 1½" (strainer diameter 70 mm) and 3½" (strainer diameter 114 mm)
- Sink bowl drains can be closed by means of plugs or pull-out stainless steel strainer basket furnished with gasket
- Pop-up system enables mechanical drain control by means of a button located on the sink edge
- Overflow form is rectangular with different drain position (PP, HV and HPV)

KITCHEN MIXER TAPS

Alveus kitchen mixer taps are technologically sophisticated and come in various shapes to complement traditional as well as trendy kitchens. The numerous varieties with regard to installation, operation and surface finishes allow an abundance of combinations.

- Taps are made of brass with surface finish polished chrome (CHR), brushed chrome (CHR-BR), Alveus colour range and ceramic nitride (PVD-treatment) in four shiny colours (Gold, Copper, Anthracite and Bronze)
- Several models are maded of stainless steel with satin surface finish (SAT)
- Ceramic discs and metal handles ensure reliable operation and long service life
- Taps can operate with water pressure from 0,5 to 8 bar (recommended 1 to 5 bar)
- Taps are of swivel body or swivel spout
- Several models are fitted with pull-out spout and spray function
- Taps can be installed on the sink or kitchen worktop
- Some models have movable spout, which is convenient for under - window installation
- Two flexible hoses with 3/8" connections ensure simple and fast installation to dual (hot-cold) water supply system
- Models with mark - ⚡ - are equipped with three connection hoses and can operate only with cold water supply, delivering hot water instantaneously on demand by means of un-pressurised water heater (usually electric boiler)

Functionality: with filter

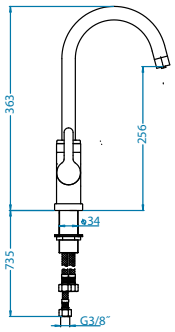
1105438



Sink mixers connectable to the filter

Sink mixer Oasis and Aqua are designed to be connected to the water filter, through which water can be cleaned of all contaminants, which impair the quality and taste of drinking water.

Sink mixers Oasis and Aqua have two separated inlet hoses – inlet hose for normal, unfiltered water and another for filtered, drinking water. As there are two separated inlet hoses there a are also two separated levers to operate normal or drinking water.

Sink mixers do not include the water filter.
Onto the sink mixers Osais and Aqua can be attached any water filter designed for household water purification.

WASTE SEGREGATION BIN SYSTEMS

Waste segregation bin systems Albio are designed to enable the most convenient removal of kitchen waste from the working surfaces. It is possible binning of different kinds of biological and non-biological waste. Due to various bin sizes and large total capacity, Albio systems fit any home.

- Metal guides and stable construction enable binning up to 60 litres of waste
- The systems are intended for quick and easy mounting onto the cabinet bottom
- The systems are designed to prevent unpleasant odours from escaping
- Depends on the model there are systems with one, two or three waste bins
- The bins are made of environment friendly polymer materials, which are easy to clean and recyclable
- The built-in handles allow easy handling and stable insertion of trash bags
- System Albio 30 enables opening at the same time with door cabinet
- System Albio 40 can be turned to a drawer system with normal or assisted and damped closing by means of optional accessories

KITCHEN ACCESSORIES

Alveus dispensers of liquid detergents enable simply assembly in the kitchen. They are suitable for installation on the sinks and in all kinds of kitchen worktops of thickness up to 45 mm.

The use of dispenser is very simple, for by pressing its upper part by one hand a required quantity of liquid detergent or liquid soap can be hygienically and optimally applied to a washing sponge. Pull out of the upper part enables easy refill of dispenser from above. Maximum content of each dispenser is 500 ml. The amount can be quickly checked due to transparent material of the dispenser container.

Alveus cutlery trays fit 500 mm long kitchen drawers in kitchen cabinets of standard sizes 400, 450, 600 and 900 mm. The trays are easy to cut in order to fit perfectly the drawer. They are made of polypropylene, an environment friendly polymer material that fulfils also hygienic requirements for coming into contact with foodstuff.

Alveus Allshine is universal cleaning agent for kitchen sinks made of stainless steel and composite material Algranit. It is also suitable for removal of persistent stains as well as limescale.

COOKERS

Alveus hob units are designed for kitchenettes and down-sized kitchens in flatlets, holiday homes and holiday cottages. They are distinguished for their functional hob configuration and the elegance of stainless steel housing.

Models are furnished with electric hot plates and comply with the EU directives on safety and electromagnetic compatibility. They combine a hob unit and sink in a single product.

Alveus hob units are installed as top end element of one or more kitchen cabinets.
