OUR STORY

28 years spent pursuing the ethos, 'what the spirit commits, perseverance completes' is what has shaped Stylam Industries Limited. Incepted in the year 1991, under the name of Golden Laminates Private Ltd, we started our success story by manufacturing decorative laminated sheets for both residential as well as industrial applications.

Today, under the brand name STYLAM, we have been combining industrious efforts, wide experience and innovative product customization to consistently deliver quality and satisfaction to our clients. Dealing in Post Forming, Magnetic Laminate, Mirror Laminate, Anti Finger Print Laminate and Chemical-resistant Laminate, STYLAM is a name trusted for unmatched laminates that suit every budget. We are reputed to be a global entity with a Pan India presence and a thriving export market in more than 60 countries. Our major customers are in Europe, Far East, Middle East, Russia and North America and we continue to maintain robust YOY growth.

We have our state-of-the-art infrastructural plant at Panchkula in North India. Our manufacturing unit has world-class machines and equipment and insures maximum production of laminates in minimum time and our machines are operated by highly skilled and best-in-class workmen. Sophisticated moulds of various finishes imported from Europe are used in the production of our high quality laminates in accordance with the universally acceptable European standards EN 438 series. Marking our silver jubilee celebrations is the inauguration of our second production facility, this is an ultra modern manufacturing plant designed by renowned

Singapore based architects. The factory is spread over 36 acres and has been designed considering the most modern structural concepts. The facility will have a hydraulic press system capable of producing the biggest size of laminate panels in India at 4320 x 1860 mm. Jointly our production facilities will ensure that we become the largest laminate producing group in India with a production capacity of over 12 million laminate sheets.

We are an ISO 9001: 2015 certified company, that itself shows our integrity, quality and reliability. Another feather in our cap is, we are recognized as an 'Export House' by the Government of India. Our unique design range and advanced quality efficiency of laminates has assisted the company in being awarded the prestigious CE certification for its compact laminates.

ASIA'S LARGEST LAMINATE PLANT!

We are humbled to serve you better with our new plant spread across 36 acres, empowering us with monthly production capacity of around 1.3 million laminate sheets.

Let your imagination loose on your laminates.

Allow us to customize your world with our collection of laminates with digital impressions. Or design your own laminate and share it with us - it can be an image or any other design. We will help you convert your imagination into reality on our laminates.

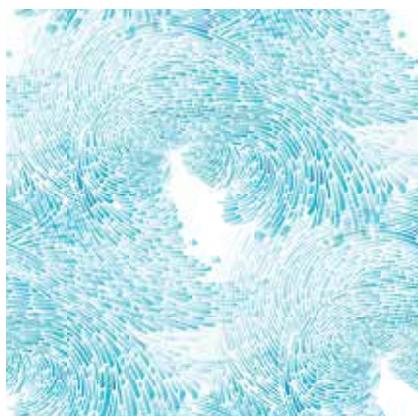

Imagination has no boundaries. But the real art is, when you can translate your imagination to something that you can see, touch and feel. This is what sums up the intention of STYLAM Digital Laminates. With themes ranging from Abstract, Nature, Childhood, Youthful and Retro, you can choose from any category. Come, explore a whole new world of creative and quality laminates.

Flip through our Design section and discover the ocean of inspiration to match your ideas.

CUSTOM-MADE DIGITAL LAMINATES

YOUR
Digidelight
DIGITAL LAMINATES ■ ■ ■

'YourDigiDelight' feature makes the process of converting concepts into laminates very simple. If you have any idea, or design, simply share artwork for the same with us, and we shall print that for you.

Alternatively, you can check our design library which is vast and interesting. From aesthetic to the most modern creative, abstract and populist designs, we do not run short of options. Do not worry about quantities and sizes. We shall be able to cater to all.

ARTWORK GUIDELINES

Vector-based file is most preferred for printing custom laminates. This is due to the fact that resolution is not a concern with vector based files and therefore we can enlarge an image as much as needed without a problem with clarity. Still, for achieving this, you must CREATE the file in a vector based program.

Preferred program for Vector based files:

Adobe Illustrator:

Save using a .ai extension (ex: file.ai)

Compatibility: Version CS6

OR save using a .EPS extension as an EPS file.

Make sure all imported files are embedded.

(You could also send us .cdr files. However we prefer .ai files)

IMPORTANT: For all vector based files convert all fonts to outlines (or paths) to insure that we will be able to print the fonts just as in your artwork. Also, if colors are specified as pantones in the file, we will match to pantone colors. When specifying pantone colors please use solid UNCOATED colors. Otherwise, please send a hard copy showing the colors you want produced.

For photos:

When scanning photos you need to know the size the picture will be enlarged to when adapted into custom laminate. At full, finished size, the digital file of the photo will need to be no less than 100dpi.

125-150 dpi is a better. So, if you are scanning a photo at a 1:1 ratio, scan at either 100 or 125 dpi. If the photo will have to be enlarged 200%, the scan will have to be 200-250 dpi.

PhotoShop:

Save files as .tif or .psd.

Compatibility: Version CS6 or before.

If your artwork is in layers in Photoshop, please send the files to us in layers. Also, for color matching purposes we will need a hard copy of the colors you want reproduced. If the file originally created in Illustrator or Freehand please send us the original file instead of a PhotoShop file.

Note: Text will be much cleaner/crisper if you use Illustrator instead of Photoshop. Small text/intricate text will need to be created in Illustrator for sharper results.

Do not send a PageMaker, an Autocad or a Quark Express file.

How to send the artwork files:

You can send your files on a DVD/CD or via the Internet using "Dropbox". You can also email files (only upto 6 MB file size) at this email adress: info@stylam.com

TECHNICAL SPECIFICATIONS

Sl. No.	Properties	Unit	Specified Value	Typical Stylam Value

CERTIFICATIONS

In 25 years, we have achieved what only a few dream of. Truth is, we just keep on going, with what we have decided. And then everything else... just follows.

The ISO 9001:2008 certification is a hallmark of integrity, quality and reliability. The design and efficiency of the laminates have earned us the CE Marking Award.

Stylam takes pride in being recognized as an Export House by the Government of India. We meet all quality, safety and green standard and operate as a responsible corporate citizen.

The image features a close-up of long, wavy, vibrant red hair against a dark background. The hair is the central focus, with its rich color and texture highlighted. In the center of the hair, there is a white rectangular logo with a thin red border. The logo contains the word "STYLAM" in a bold, white, serif font, with a registered trademark symbol (®) to the upper right of the text.
